Sub: STORES - Glass ampoules for manufacturing Freeze Dried Vaccines - Purchase from W. Edwards & Co., London - Permission - Requested -

Ref: G.O.Ms.No.1167, Finance Department, dated 30-6-1955.

...

Glass ampoules in clear neutral glass with 6 m.m., bore stem and 7.5 m.m., bore body suitable for drying volume upto 0.5 c.c., manufactured by W. Edwards & Co., London are required by the Superintendent, Institute of Veterinary Preventive Medicine, Ranipet in large numbers for being used in the manufacture of vaccines for Rinderpest, Ranikhet, Fowl Pox and Sheep Pox diseases which are now manufactured in a freeze dried form. So far these ampoules were being purchased through the Scientific Instrument Co., Ltd., Madras who are the Indian Representative to Messrs. W. Edwards & Co., London.

2. In the extract of paragraph (c) of the letter No.F.4-18/Aud.54, dated 28-1-55 of the Ministry of External Affairs furnished in the G.O., cited above it has been stated that when Stores are to be procured from United Kindom or other continental countries, the agency of India stores Department, London should invariably be utilised for such purchases and that any departure from this proceedure should be supported by adequate justification for which sanction of the competent authority should be obtained in advance. The present stock of glass ampoules on hand is reported to last only for 4-5 months since the demand for these Freeze Dried Vaccines is very heavy especially from the Andhra State. As the ampoules of this type are not available in India they have to be necessarily obtained only from W. Edwards & Co., London. In order to tide over the present urgency I have permitted the Superintendent, Institute of Veterinary Preventive Medicine, Ranipet to place orders for the supply of 30,000 to 35,000 ampoules on the Scientific and Instrument Co., Ltd., Madras since it is likely to take a long time to get the supply of ampoules through the India Stores Department, London and the production of vaccine will be adversely affected, if the ampoules are not obtained within the next 3 or 4 months. The cost of the ampoules for which orders are placed will be about Rs.2,000/- exclusive of incidental charges. I request that my action in having permitted the Superintendent to place orders through the local firm may kindly be approved.

3. An indent for the supply of 1,00,000 ampoules required for the use of the Institute early next year to be obtained through the India Stores Department, London will be sent shortly. I, request that Government may be pleased to sanction the purchase of these 1,00,000 ampoules at a cost of Rs.6,000/- exclusive of other charges from W. Edwards & Co., London through the India Stores Department. The expenditure

is...

is debitable to "41. Veterinary - e.Other charges - A. Institute of Veterinary Preventive Medicine - Office charges - Apparatus and materials".

Ref: From the DAH. letter Rec'd. 9333-B3/55 dy 14/9/55.

Please see the letter from the DAH. under ref. 1-2. cf.

2. It has reported that Glass ampoules manufactured by W. Edwards & Co., London are required by the Supdt., D.V.P.H., Ranipet in large numbers, for being used in the manufacture of Vaccine and that they were being purchased so far from the Scientific Instrument Co., Ltd. who are the Indian Representatives of Mys. W. Edwards & Co, London.

3. The present stock of glass ampoules on hand, is reported to last for 4 to 5 months only. The DAH. has permitted the Supdt. D.V.P.H. to place orders for supply of about 35,000 ampoules on the Scientific Instrument Co. Ltd., Madras at a cost of about Rs 2,000/- as the it is likely to take a long time to get the supply thro' the India Stores Deptt., London. In this connection the DAH. has invited attention to Govt. of I. letter dy 28/1/55 in which they have stated that the agency of the India Stores Dept., London

dy cf.

para 1 wrp 1 Cf

para 1 wrp 1 Cf

should invariably be utilised for the purchase of stores from U.K. & other Continental Countries & that sanction by a Competent Authority is necessary for any departure from this procedure. The DGH has therefore requested that the action in permitting the Supdt. D.V.R.Rs., to place orders thro' the local firms may be approved.

4. It is submitted that from the D.O.H. letter of 9.9.55 on pp 3-4 of (K) it appears that the ban is only on the purchase of stores direct from abroad by the depts & not on the purchase of an article manufactured abroad & purchased through agents in India. Finance may advise.

5. The DGH has also reported that an indent for the supply of 1,00,000 ampoules required for the Institute next year will be sent shortly. He has therefore requested that Govt may sanction the purchase of 1,00,000 ampules @ Rs 6000/- exclusive of other charges from M/s. W. Edward & Co. London thro' the India Stores Depot.

For orders whether the above proposal of DGH may be accepted. Finance may see for remarks.

Please see the finance dept. note at p 2 above.

In view of the n.o. note at (A) in which it ~~has been decided~~ stated that it has been decided that in future this Govt. should avoid placing orders for machinery through the Director General of Supplies and disposals it does not appear necessary to sanction the request of the D&H. only I Cj. now. The Director may now be consulted whether in the circumstances he ~~will~~ proposes to import these glass ampoules directly or to place orders with any local agent. Subject to orders a draft memo is submitted below for approval.
